Engage in exhilarating activities from surfing to shark safaris, dolphin-watching to diving. Sail by *dhoni* to The Island Spa – the only spa in the Maldives on its own private isle. ### **A village setting that draws on the traditions of generations of craftsmen**

The architectural design centres on giving the entire Resort the feeling of a Maldivian village. Traditionally styled accommodations flank the island, either side of a wide garden promenade filled with bright, fragrant flowers. Architectural detailing – including decorative lattice panels, curved roof shapes and carved roof features – is inspired by Maldivian forms and draws on the traditions of generations of craftsmen. A generous use of timber and thatch complements the natural surroundings, with subtly raised floors maximising the sea views throughout the island. All en-suite bathrooms integrate an indoor bath and shower area with a Maldivian open-air shower set in the exotic confines of its own walled garden.

## DINING

*Four restaurants, two bars, in-bungalow and unique private dinoptions*

### Café Huraa

Four areas each offer a unique ambience – a tree-shaded sand-floor garden; a starlit water's-edge deck; beneath the arches of a cosy beachside trattoria; or at the bar – for glorious al fresco lunches and dinners, Mediterranean-style.

### Baraabaru

Meaning 'excellent' in Dhivehi, Baraabaru is a feast for the senses: fragrant spices of made-to-order homestyle Indian cuisine; flickering torches lighting a 25-metre over-sea deck; and artful timber columns inspired by the architecture of Kerala. Open for dinner, highlights include Jain, Sattvic and organic specialities, a private overwater pavilion for up to four guests, and daytime cooking masterclasses.

### **Kandu Grill**

### **In-Bungalow Dining**

Available 24 hours, in-bungalow dining can cater to any request, from a sunrise Champagne breakfast to a romantic starlit dinner.

## THE ISLAND SPA SEA SANCTUARY

The magic begins with a sail across Kuda Huraa's lagoon by dhoni (traditional boat). From a sea-breezy arrival, a sandy path leads to the all-new Yoga Pavilion where explorations of an ancient art include Yin and Shakti Yoga, Yoga Nidra and Pranayama sessions.

Other new additions include a re-designed Relaxation Area – where a pond feature, private seating, and soft colour scheme with copper accents soothes the senses – and the Night Spa's new home, steps closer to the stars on a treetop terrace, complete with double massage tables, a crystal singing bowl, and circular bath.

Lush gardens lead to seven over-water treatment pavilions – each designed for couples – featuring massage tables with sea-viewing portals, separate bathing area, and private garden courtyard with open-air shower.

The 'Healing Waters' spa menu offers a unique 'three depths' treatment concept that helps guests restore their primal connection to the sea through pioneering marine-based OSEA therapies and rituals.

**Deep** – Incredibly effective treatments designed to have deep therapeutic impact in the minimum amount of time.

**Deeper** – Exploratory experiences that draw on the essence of the ocean to restore a sense of harmony.

**Deepest** – Immersive journeys to support physical, mental and emotional wellbeing at the deepest level.

Highlights include: 'Tides of Time: Return to Youthfulness' facial; 'Kuda Huraa Healing Waters: Return to Tranquility' therapy; and 'The Big Blue: Return to Wellbeing' ritual.

dive sites, accessed via a traditional customised *dhoni*. Highlights include the renowned manta ray cleaning station at Sunlight Point (sightings from May to November) and the exciting 110-metre long cargo freighter wreck, just 45 minutes away.

Kuda Huraa's dive team will also help guests complete the theory part of the PADI Open Water Course online (with PADI e-learning) in the comfort of their home prior to their arrival, enabling them to qualify on site in just two days.

Certified and advanced divers can enjoy daily two-tank morning dives and one-tank afternoon dives, with sunrise, night and other specialty dives available on request. A full range of fun, continuation courses offer the additional benefit of developing impressive new skills in thrilling areas alongside some of the most experienced instructors in the Maldives.

## ENVIRONMENTAL AND COMMUNITY PROJECTS

**Marine Discovery Centre (MDC)** – an interactive research and education centre that introduces guests and local school children alike to the role we can each play in conserving the local and global marine ecosystem.

The Centre features audio-visual presentations on specific areas of conservation close to the Kuda Huraa team's heart, including turtles, coral reefs, sharks and dolphins. In addition, it shows daily 3D movie presentations on the underwater world.

[www.marinesavers.com](http://www.marinesavers.com) – features the history, progress and plans of all of Four Seasons Resorts Maldives marine conservation projects. Interactive components enable guests to keep track of the Resorts' satellite-tagged turtles, follow the progress of coral frames they have sponsored and transplanted, and keep up to date with news of island events from the discovery of turtle nests to outreach projects with local schools.

**The Maldivian Sea Turtle Conservation Programme** – Comprising a series of projects across Four Seasons Resorts Maldives, our turtle programme works to protect, monitor, relocate, release, and rehabilitate Maldivian sea turtles. Kuda Huraa's MDC has two turtle ponds, where green turtle hatchlings from protected nests are reared for up to 18 months to improve their chance of survival in the wild.

**Reefscapers ([www.marinesavers.com](http://www.marinesavers.com))** – Kuda Huraa has been working with environmental consultancy, Seamarc Pvt. Ltd, to improve coral cover around the Resort since 2001. Known as 'Reefscapers', the regeneration initiative today runs concurrently at Kuda Huraa and Landaa Giraavaru, and has grown into one of the most successful projects of its kind in the world. Sponsored by the Resorts and their guests, it involves attaching coral fragments onto specially designed coral frames to boost existing reef habitats and generate new ones. Frames are produced on Fulhadoo – a nearby island of 250 inhabitants – where the only previous source of employment was fishing.

**Water-bottling Plant** – Kuda Huraa's water bottling plant produces still and sparkling water for its restaurants and guestrooms, saving around 30,400 plastic bottles per month.

**Bodu Huraa Community Initiatives** – Kuda Huraa has initiated and supports several projects on the neighbouring island of Bodu Huraa. These include: a recycling centre; the provision of a desalination plant and sewage system; the support of the community health centre; purchasing contracts with fishermen and farmers, and the financing and leasing back of private boats and private homes from local owners for staff use. Kuda Huraa also has strong relationships with local painters and woodworkers from Bodu Huraa who visit the Resort weekly to display their art and crafts for guests to buy.

**Mosquito Control** – Kuda Huraa has been working with Trudy Rilling-Collins, a.k.a. 'The Mosquito Lady', since 2011 to provide environmentally responsible solutions to unwanted monsoon-loving guests. Thanks to Trudy's highly targeted techniques, Four Seasons has been able to completely eliminate the use of fogging across both of its Maldivian resorts, and is now funding the extension of the project to Bodu Huraa, Kuda Huraa's adjacent community island, and across 13 island communities in the Baa Atoll UNESCO Biosphere.

## WELCOME TO FOUR SEASONS RESORT MALDIVES AT **LANDAA GIRAAVARU ...**

... a 44-acre wilderness in the secluded Baa Atoll UNESCO Biosphere Reserve that links land and sea, conservation and culture, wellness and innovation.

A soaring seaplane arrival from Malé brings guests to a natural playground of possibility: a mesmerising 2.5-km lagoon, pristine Blu Beach and lush jungle heart. From Planetary Wellbeing experiences at AyurMa to Ayurvedic options in all restaurants, care and reverence for nature underpin every moment.

### **Merging personal and planetary wellbeing**

Having paved the 'experiential travel' way with interactive conservation initiatives for 15 years – from groundbreaking Reefscapers coral propagation and Turtle Rehabilitation Centre to the launch of The Maldivian Manta Ray Project (the founding project of The Manta Trust) – Earth Day 2020 saw the launch of Landaa's partnership with The Now Force For Good Alliance and EarthCheck; part of the Resort's commitment to be ever-more transparent and advance sustainability in all of its forms.

### **Revealing raw beauty in tantalising instalments**

Landaa's design is an expression of function over form, characterised by clean lines and lack of elaboration, carvings, or decoration. The pure appearance is complemented by the deliberate orientation of each building: cut-throughs in the vegetation, 'picture' frames created by cross beams, private gardens, tall ceilings and seemingly endless jungle paths – all combining to reveal the raw beauty of the island in tantalising instalments.

The Resort was designed by visionary Sri Lankan architect, Murad Ismail, and showcases a simple, contemporary blend of traditional Maldivian and Sri Lankan forms. The airy buildings each adhere to regional styles – from the 45-degree pitch of the high thatched roofs to the use of coral walls. (Four Seasons received approval from the Maldivian Government to recycle the coral used from a redevelopment project and painstakingly revived ancient Maldivian building techniques on the external walls of the villas.) Entry to each residential domain is via its own turquoise gate with reclaimed coral walls and lush vegetation providing maximum privacy.

**The Marine Discovery Centre (MDC)** – an interactive research and education centre designed to guide guests and locals alike through the underwater world of the Maldives and the Resort's efforts to conserve it. The Centre uses multi-language touch screen video kiosks, dramatic photography, exhibition boards, educational talks, life-size models, a children's area, and interaction with marine biologists to educate its visitors.

**[www.marinesavers.com](http://www.marinesavers.com)** – features the history, progress and plans of all of Four Seasons Resorts Maldives marine conservation projects. Interactive components enable guests to keep track of the Resorts' satellite-tagged turtles, follow the progress of coral frames they have sponsored and transplanted, and keep up to date with news of island events from the discovery of turtle nests to outreach projects with local schools.

**Reefscapers** – Four Seasons Resorts Maldives coral propagation project is one of the most successful of

its kind in the world. Initiated by Maldivian environmental consultancy, Seamarc Pvt. ### Solar Panels

Comprising 3,105 solar panels and spanning 5,380m<sup>2</sup> (58,000 sq. ft.) across the roof surface of the staff village, this is one of the Maldives' largest resort-based solar installations. It is estimated to save over 300,000 litres (66,000 gallons) of diesel which corresponds to 650-800 tons of CO<sub>2</sub>. This CO<sub>2</sub> reduction equates to the elimination of carbon emissions generated by approximately 544 flights between London to Male.

**Landaa's Fish Lab** breeds ornamental fish with the aim, in time, of developing an alternative source of income for local communities.

**Landaa's Turtle Rehabilitation Centre** – 10 years old in 2020, Landaa's Rehab Centre is part of the Maldivian Sea Turtle Conservation Programme, a series of projects established by Four Seasons Resorts Maldives to protect, monitor, relocate, release, rear and rehabilitate Maldivian sea turtles. **Mosquito Control** – Landaa Giraaavru has been working with Trudy Rilling-Collins, a.k.a. 'The Mosquito Lady', since 2011 to provide environmentally responsible solutions to unwanted monsoon-loving guests. Thanks to Trudy's highly targeted techniques, Four Seasons has been able to completely eliminate the use of fogging across both of its Maldivian resorts, and is now funding the extension of the project to Bodu Huraa, Kuda Huraa's adjacent community island, and across 13 island communities in the Baa Atoll UNESCO Biosphere.

**Waste Management Programme** – Implemented across three local islands, providing collection bins and fortnightly removal of waste that would otherwise pollute the island and surrounding sea. In addition, the Resort's ongoing partnership with 'Parley for the Oceans' recycles any leftover plastic into clothes, shoes and more.

**Water-bottling Plant** – producing still and sparkling water for Landaa's restaurants and guestrooms, saving around 30,400 plastic bottles per month.

## THE HOSPITALITY APPRENTICESHIP PROGRAM

Originally launched at Kuda Huraa in 2001, the Four Seasons Maldives Hospitality Apprenticeship Programme is a vocational training program for young and dynamic Maldivians (aged 17-20) looking to enter the hospitality industry.

2020 marked the program's 20<sup>th</sup> year, and brought the total number of graduates to date to 651, and on June 3, 2021, the programme welcomed a new intake of 44 Apprentices to the class of 2022. Approximately 75 per cent of graduates are now full-time employees of Four Seasons Hotels and Resorts, with many others excelling in hospitality roles elsewhere.

Apprentices are selected by a team of the Resorts' Senior Management from a series of hundreds of one-to-one interviews held across the Maldives each year; they are then trained throughout the course of a year to become solid professionals in areas including Food & Beverage Preparation, Food & Beverage Preparation or Service, Safe Maritime Transport, PADI Dive Master, Water Sports, Housekeeping & Guest Services, Marine Biology, Engineering, Front Office and Retail.

The program includes a combination of intensive on-the-job training and theoretical classroom sessions, with specialisation courses taught by Senior Management. Most apprentices arrive at the Resorts with little or no working experience, but leave a year later with the talent and ability to secure a position in any of the Maldives' five-star resorts.

In 2010, the Hospitality Apprenticeship Programme was officially recognised by the Maldives' Ministry of Human Resources as a government-accredited curriculum and was awarded the internationally recognized TVET (Technical and Vocational Education and Training) certification; this makes Four Seasons the first hotel group to enter into a partnership with the Maldivian government and the first to offer a TVET-certified hospitality program to local youngsters.
