# CONSERVATION

We partner with local non-profit organisations Marine Conservation Society Seychelles and Island Conservation Society to run conservation projects that provide lasting solutions and preserve the pristine nature of Platte Island.

# TURTLE HATCHING

Platte Island is a natural breeding ground for Hawksbill turtles during the nesting season between November and March.

# TROPICAL BIRDS

Platte Island witnesses the migration of a variety of tropic birds along with a vibrant population on the island.

# SHARK NURSERY

Waters surrounding Platte Island is home to a wide variety of sharks - including lemon sharks, blacktip sharks, reef and nurse sharks.

# EXPERIENCES THAT LAST

Join conservation teams or on-site Marine Biologist to give back to the beauty of the ocean while helping with its preservation and conservation.
